SUPPLEMENT TO REPORT NO. [REDACTED]

[REDACTED]

25X1X 1. The Trieste agency of the Philips Company recently requested the parent company in Milan to provide three special apparatuses of the types "Panoramic-Panadaptor" constructed by the Radio Corporation, 242-250 West (?) New York. The order for these devices was placed from Yugoslavia. They are not available in Italy.

25X1A [REDACTED] Panoramic-Panadaptors are used to sweep wide bands of the radio frequency spectrum and indicate any signals received on a cathode ray tube. This gives visual indication of all signals received in the band under surveillance. This device is useful in radio intercept and radar jamming countermeasures.)
